

Kitchen in a Basket Program

Child & Family's **Supportive Housing Program** helps homeless families with children achieve stable residency and financial independence.

The goal of the “**Kitchen in a Basket**” program is to provide families entering our Supportive Housing Program with kitchen basics. As shown in the below photo, the baskets will be full of fresh and useful items the families can use now in the kitchen of their apartment unit, and will be able to take with them when they leave Supportive Housing and obtain permanent, independent housing.

You can help by working with a local retailer to request an in-kind donation of these items on our behalf. You can also purchase the items yourself or pool your efforts with friends and family to fill a basket and donate to the program. Here is list of the types of items we seek:
